

Nursing Education & Leadership Institute: Purposes and Outcomes

Purpose

The goals of the proposed NELI are:

- Facilitate development of nurse leaders—in all realms of responsibility—and prepare them to more readily navigate and lead within the complex environments and evolving demands of the modern health workplace.
- Enable and optimize nursing practice for real-life situations and current trends.
- Optimize the role and contribution of all nurses to ensure they contribute to, and benefit from, healthy workplaces.
- Increase the understanding of the role of nursing leadership on quality nursing care and patient outcomes.
- Provide mentorship and support for new graduate nurses
- Address the challenge of life-long, everchanging career development

Outcomes

Examples of expected outcomes for nurses participating at NELI may include and will not be limited to:

- Gaining knowledge and skills to better serve the patients within their practice setting
- Recognizing and employing their capacity to lead regardless of their designated position within their organization/setting
- Developing strategies to sustain themselves in chaotic, challenging and rapidly changing environments
- Achieving clarity on their individual career paths and goals
- Acquiring a mindset and skill set that will enable them to address real-life situations in the role within their setting
- Contributing to creating workplace environments and system change that reflects optimal service to patients and families

Thank you for sharing your opinions with us. For any questions about the survey, please contact the survey administrator at info@nnpbc.com.
