Nurse Practitioner - Permanent Full-Time

Copeman Healthcare - 808 Nelson Street, Vancouver, BC

Contact: Lauren Hamilton, Manager, People & Culture lahamilton@copemanhealthcare.com or www.copemanhealthcare.com

Posting will remain active until suitable candidate is found

Copeman Healthcare Centre's (CHC) mission is to improve quality of life by delivering the highest standards of personalized and prevention-focused healthcare. We are a primary care facility that combines the care of a physician with an entire team of specialized healthcare professionals to deliver personal, proactive, team-based healthcare. CHC embodies values that reflect a commitment to excellence. These include accountability, innovation, collaboration, people-focused, excellence, client centred.

The Family Nurse Practitioner (FNP) plays a key role in the provision of services for patients at CHC. The FNP is responsible and accountable for the comprehensive assessment of patients, for diagnosing medical conditions, as well as initiating treatment including health care management, therapeutic interventions and prescribing medications in accordance with the statutory and regulatory standards, limits and conditions, and employer policies and procedures. The FNP provides professional guidance to other health professionals and collaborates with physicians and the interdisciplinary team. As professionals, FNPs participate in peer review and self-review to evaluate the outcome of their services. They are responsible for recognizing and addressing their learning needs, for their professional development and maintaining competence and registration as a nurse practitioner.

Qualifications:

- Current registration as a Nurse Practitioner with the British Columbia College of Nursing Professionals (BCCNP);
- Completion of the Objective Structured Clinical Examination (OSCE) through the British Columbia College of Nursing Professionals (BCCNP);
