

April 26, 2021

*Diana Law- December 9, 1963- April 14, 2021*

It was with great sadness that we heard of the passing of BC's first nurse to die of COVID-19, Diana Law.

Diana was a well-loved Registered Nurse at Peace Arch Hospital. Friends, family and co-workers described her as giving, always willing to help and a steadying presence. We honour Diana's sacrifice as we also think of the BC nurses who have battled COVID-19, and those around the country and the world who have died as a result of the illness. While we know that BC's brave nurses will continue their work in the fight against this pandemic, we reflect on the immense grief and sadness that Diana's loss leaves.

Diana's family is asking people to consider registering as organ donors, donating to the BC Kidney Foundation, Diabetes Canada, the VGH/UBC Hospital Foundation or a local food bank. She will be missed by all who knew and loved her and the entire NNPBC team sends our thoughts and condolences to each of you.
